Larger mounting pads with set screw to provide added rigidity.

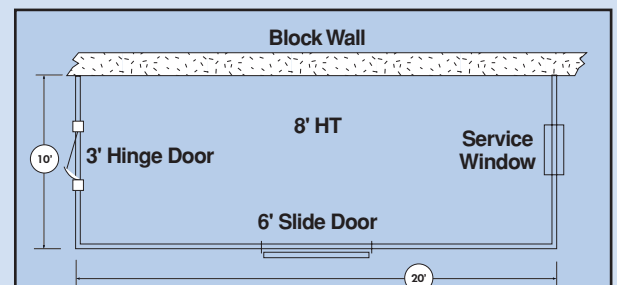

Cut outs are easily made in the field.

Heavy duty material, easy installation, same low price.

Our 2180 series uses welded wire to provide a stronger panel that installs faster and easier than traditional woven wire mesh panels. Use the 2180 partition systems for warehouse security, tool cribs, and other area guarding requirements.

Complete installation instructions and attachment hardware are included. Specify color when ordering. Stock color is gray. Other colors available are blue, yellow, black, red, and green. Please allow longer lead times for non-stock colors.

* **Stock gray ships in 48 hours.** • FOB IN.

HOW TO ORDER

Make a rough floor plan of area to be enclosed noting overall measurements. Fax plan to:
